## DESCRIPTION AND SPECIFICATIONS

The first **Gold Note Audio Rack** is called **GALILEO** in honour to the Florentine genius born in the mid of 1500, probably the most illuminated physician, mathematician, astronomer and engineer of the 2° Millennium.

The **GALILEO** Rack design combines several different details come from the best Gold Note turntables, the **Bellagio Conquest** and the **Mediterraneo**, offering both a great dampening effect and a beautiful unique Italian design, that reminds the "Monumental Staircase of the Biblioteca (Library) Vasariana" in Florence made by **Michelangelo Buonarroti** as well as the **Michelangelo Monumental Tombs of Lorenzo Dei Medici**.

The soft curved and the rounded design of **Galileo Rack** shelf angles and edges combining a great look with a superb dampening extra efficient effect due to its anti-seismic design of the shelf made of a triple layer massive **Italian Walnut** wood interfaced with stainless steel **3mm** layer keep together by 16 stainless bolts for a total **45mm** thick weighing **25 kilos** module.

The Galileo shelf dimension is **700x650mm** allowing handling **100 kilos** units each can virtually handle any kind of audio gear deserves the best audio quality performance.

The **Galileo** is offered with solid finely machined aluminium Hourglass Feet with giant interfacing Bronze Inserts.

The Hourglass shape Feet feature a great dampening effect due to the elliptical shape better distribute the longitudinal forces along the foot.

Besides the foot is 10mm recessed into the wooden shelf and it is coupled each other with a **30x48mm** giant **Bronze** threaded insert allowing the best sound performance.

The **Galileo** is a fully modular design Audio Rack allows building any custom design system starting from a single shelf rack able even to build multiple horizontal tables.

# IMPORTANT SAFETY INFORMATION

- 1** Read these instructions.
- 2** Keep these instructions.
- 3** Heed all warnings.
- 4** Follow all instructions.
- 5** Do not use this apparatus near to any water.
- 6** Clean only with dry cloth.
- 7** Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8** Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9** Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10** Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11** Only use attachments/accessories specified by the manufacturer.
- 12** Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13** Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14** Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
  - Do not expose this apparatus to drips or splashes.
  - Do not place any objects filled with liquids, such as vases, on the apparatus.
  - Do not install this apparatus in a confined space such as a book case or similar unit.
  - The apparatus draws nominal non-operating power from the AC outlet with its POWER or STANDBY/ON switch not in the ON position.
  - The apparatus should be located close enough to the AC outlet so that you can easily grasp the power cord plug at any time.
  - The main plug is used as the disconnect device, the disconnect device shall remain readily operable.
  - If the product uses batteries (including a battery pack or installed batteries), they should not be exposed to sunshine, fire or excessive heat.
  - Caution should be taken when using earphones or headphones with the product because excessive sound pressure (volume) from earphones or headphones can cause hearing loss.
